

8. Let's practise Japanese diary language!

- In mixed ability pairs Ss write out a diary script together using language that they have learnt throughout the unit and once checked with the T for accuracy Ss record each other using Buddy Poke on their BYOD to practise speaking skills.
- Ss in small mixed ability groups of three conduct a think, pair, share exercise about something that they did that day in plain, past form.
- T gives Ss a school-based hashtag in which they use to access Twitter and post plain, past sentences about their day in which fellow Ss reply to creating authentic Japanese conversation.
